

SenseHub® Dairy

# In-Line MilkPlus Sensor

**Actionable insights into your cow's milk yield and quality - no matter which milking parlour type or brand - with the SenseHub Dairy In-Line MilkPlus Sensor.**

Monitoring critical milk data such as yield, fat, protein, lactose, blood, and conductivity, you have instant visibility into milk trends for individual cows and your entire herd.

With all the information stored and displayed in the SenseHub Dairy system, you have access to it where and when you need it - so that you can make more informed decisions based on individual and herd data.

## Measure where it matters

Fully connected to the SenseHub Dairy system

Freedom is knowing the milk yield and quality - of every cow - from every milking

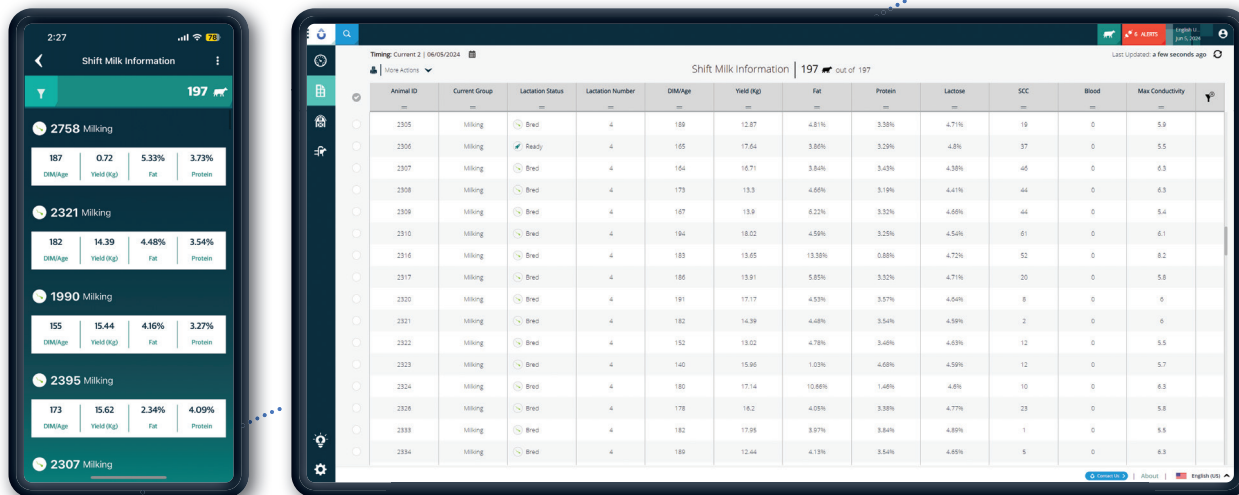

## SenseHub® Dairy In-Line MilkPlus Sensor

With SenseHub Dairy milk reports and graphs, farmers have shift, daily and lactation milk production insights so they can make more informed decisions to optimise productivity and animal well-being.

When combined with SenseHub Dairy Behaviour Monitoring and Automation, farmers can improve workflow to farm with more freedom.

- Gain knowledge of your cow's milk production.
- Make more informed farm management decisions.
- Assess your nutrition and feeding strategy.

Farm with **more freedom**  
through a deeper connection  
to your animals

**Contact your MSD Animal Health  
representative to learn more**
